1. To qualify for rebates through the PowerWise Standard Business Solutions program, the participant must:
 - a. Be a current SRP non-residential retail electric customer
 - b. Purchase and install qualifying equipment as specified in the Equipment Catalog
 - c. Submit a completed Rebate Application, a dated copy of the paid invoice or receipt, and any other documentation specified in the Equipment Catalog
 - d. Abide by the program rules, eligibility requirements, and rebate levels in effect at the date of equipment installation
2. Qualifying equipment is eligible for rebates if it is purchased on or after May 1, 2009, subject to rebate availability.
3. Failure to provide any of the required information, including signatures, forms, or other requested documentation, will result in the return of the Rebate Application.
4. Rebates requested by the Rebate Application may exceed the amount reserved by the Rebate Reservation Request only when funds remain in the program budget and no projects have been placed on a waitlist for program participation.
5. One rebate check will be issued per approved Rebate Application to the person specified on the application.
6. Qualifying equipment as defined in the PowerWise Standard Business Solutions Equipment Catalog receiving rebates under the program may not receive purchase and installation rebates or credits under any other SRP programs.
7. For the purposes of SRP's energy efficiency programs, a customer is defined as a company or organization that receives electric service from SRP under an approved SRP price plan. A customer is a holder of a single account, multiple accounts in aggregate or corporate accounts. Multiple accounts or corporate accounts with a single SRP customer identification number will be considered a single customer. An organization of this type can participate in multiple efficiency programs, but will be subject to any applicable customer rebate caps. SRP retains the right to make final determination of customer eligibility.
8. Customers will be limited to \$100,000 in rebates for measures installed and approved by April 30, 2010 under the FY10 PowerWise Standard Business Solutions program, and an overall rebate cap of \$150,000 per customer from participation in all FY10 PowerWise Business Solutions energy efficiency programs offered by SRP.
9. SRP reserves the right to inspect the installed equipment for compliance with the program requirements. Inspection may include a telephone survey, site visit, and/or the installation of temporary monitoring equipment at any time up to two years after installation for quality control. Customers will allow SRP and their subcontractors reasonable access to and egress from the installation site during normal business hours for inspection purposes. If selected for inspection, the rebate will be withheld pending outcome of the inspection. If the equipment is found to be in compliance with the program requirements, the rebate will be paid. If the equipment is not in compliance, the customer will be notified.
10. Program procedures, requirements, and incentive levels are subject to change or cancellation without notice.
11. SRP makes no representations and provides no warranty or guaranty with respect to the design, manufacture, construction, safety, performance or effectiveness of the newly installed equipment, including any warranties of merchantability or fitness for a particular purpose. Responsibility for delivery and workmanship related to any equipment or services the customer procures exclusively rests with the contractor or retailer selected by the customer. SRP assumes no responsibility for oversight of contractor services

Terms and Conditions, continued.

The terms and conditions set forth herein constitute a complete statement of the Terms and Conditions applicable to this promotion, and supersede all prior representations or understandings, whether written or oral.
