This responsibility includes ensuring that the customer's plumbing facilities comply with all relevant construction codes and safety standards. Customers should coordinate this responsibility with their installer, as appropriate, before commissioning a solar thermal system. This Certificate In Lieu of Plumbing Clearance ("Certificate") must be signed when the governmental authority having jurisdiction has elected to not require a permit or inspection for installation or significant modification to a plumbing system on a customer's property. **A CUSTOMER'S FAILURE TO COMPLY WITH RELEVANT CONSTRUCTION CODES AND SAFETY STANDARDS MAY RESULT IN INJURY OR DEATH TO PERSONS OR DAMAGE TO PROPERTY.**

9. SRP will, subject to Customer's compliance with the requirements specified in the applicable incentive agreement (e.g., the Residential Solar Water Heating Application and Agreement), provide an incentive payment for the Solar Thermal System after Customer executes this Certificate, even though the governmental authority having jurisdiction has not reviewed or inspected Customer's Solar Thermal System to ensure compliance with the Uniform Plumbing Code and other relevant codes and safety standards required by the governmental authority having jurisdiction.
