
SOLAR ENERGY PROGRAM: SOLAR ELECTRIC CHECKLIST

If you plan to participate in the \$3 per watt solar electric program, please use the checklist below to help guide you through the process (the entire process normally takes 2-3 months):

- Contact SRP to request a packet of information (or download the applications at www.srpnet.com/solar).
- Work with a licensed contractor to select a system that meets your needs and our program requirements. SRP does not sell or install solar electric systems.
- Mail the application to SRP for review and incentive reservation (typically takes 5-10 business days). To get an incentive reservation, you must submit the following:
 - Signed SRP EarthWise Solar Energy application and agreement.
 - Quote
 - One-line drawing
 - Three-line drawing
 - Site Plan
 - Site Location
- If you are an off-grid customer:
 - Submit a letter stating that the solar electric system will not parallel with SRP's electrical grid.
 - Upon confirmation of installation, SRP will issue you an incentive check (typically takes 1-2 weeks).
- If you are an on-grid customer:
 - SRP will review the system drawings to ensure it meets our requirements (typically takes 1-2 weeks).
 - Work with your contractor to have the system permitted and inspected as required by local and state codes, if applicable.
 - During the installation period, SRP will mail you an Interconnection Agreement (ICA) (typically takes 3-4 weeks). Please sign and return this contract to SRP. Your final inspection will not occur until SRP has a signed contract.
 - Upon receiving the ICA, SRP will schedule site inspection and meter installation.
 - When your system passes site inspection, the EarthWise Solar Energy incentive will be issued (payment is typically made within 1-2 weeks).
