

SOLAR ENERGY PROGRAM RESIDENTIAL SOLAR ELECTRIC INSTALLATION CERTIFICATION

_____ (“Dealer”) acknowledges that it sold or leased to

Dealer

_____ (“Customer”) a solar electric system

Customer Name

(“Generating Facility”), which was installed by _____

Installer

(“Installer”) on the property located at _____ . By signing

Physical Address

below, the Dealer and Installer each certify and warrant to Customer and Salt River Project that the following information related to the Generating Facility is true and accurate to the best of their knowledge:

- The legal name and business address of the Installer is:

- The Installer holds a valid Arizona Registrar of Contractor’s License. License Type and Number is:

- Customer (and no other party) has full right and ownership to all of the Environmental Attributes associated with the Generating Facility.

- All equipment that was installed and/or used in connection with the Generating Facility was approved by the manufacturer of the Generating Facility for installation or use with the Generating Facility.

- Installer installed the Generating Facility in accordance with all applicable manufacturer’s specifications, SRP interconnection requirements (as set forth in SRP’s Rules and Regulations, Electrical Service Specifications and Interconnection Guidelines for Distributed Generators), and SRP’s EarthWise Solar Program requirements.

- Installer agrees that no material differences exist between the Generating Facility described in the Residential Solar Electric Application and Agreement (“Agreement”), including any modifications to the Agreement, and the Generating Facility that was actually installed.

- Installer provided a Statement of Performance (“Statement”) to the Customer that provides the expected system power output of the Generating Facility and outlines variables that will affect the Generating Facility’s

Customer name_____

performance including, but not limited to, general weather patterns, specific site conditions, energy use patterns, and other conditions not subject to the control of the system Installer.

- Customer was provided a manufacturer’s warranty of at least twenty years for the PV modules.
- Customer was provided a manufacturer’s warranty of at least five years for the inverter.
- Customer was provided with a planned maintenance or equipment replacement schedule for the remaining operational life of the Generating Facility.
