

SOLAR ENERGY PROGRAM

RESIDENTIAL SOLAR WATER HEATING INSTALLATION CERTIFICATION

_____ (“Dealer”) acknowledges that it sold or leased to
Dealer
_____ (“Customer”) a solar water heating system
Customer Name
 (“Solar System”), which was installed by _____ (“Installer”) on the property located at _____
Installer
Physical Address. By signing below, the

Dealer and Installer each certify and warrant to Customer and Salt River Project that the following information related to the Solar System is true and accurate to the best of their knowledge:

- The legal name and business address of the Installer is:

- The Installer holds a valid Arizona Registrar of Contractor’s License. License Type and Number is:

- Customer (and no other party) has full right and ownership to the Solar System and all of its associated Environmental Attributes.
- All equipment that was installed and/or used in connection with the Solar System was approved by the manufacturer of the Solar System for installation or use with the Solar System.
- The Solar System that was installed has an SRCC OG-300 rating.
- Installer installed the Solar System in accordance with all applicable manufacturer’s specifications, SRCC OG-300 standards, and SRP’s EarthWise Solar Program requirements.
- ICS Solar Systems have a minimum collector piping wall thickness of 0.058 inches.

Customer Name _____

- Installer agrees that no material differences exist between the Solar System described in the Residential Solar Water Heating Application and Agreement (“Agreement”), including any modifications to the Agreement, and the Solar System that was actually installed.
- Installer provided a Statement of Performance (“Statement”) to the Customer that provides the expected energy savings from the Solar System and outlines variables that will affect the Solar System’s performance including, but not limited to, general weather patterns, specific site conditions, energy use patterns, and other conditions not subject to the control of the system Dealer or Installer.
- The Solar System was selected and sized according to the geographic location and hot water needs of the specific application. The Solar System size and collector type are appropriate for the specific application.
- Customer was provided with a minimum of a five year equipment warranty by the system manufacturer.
- Customer was provided with a minimum warranty period of two years for repair/replacement service by the Dealer and/or Installer.
- Customer was provided with a planned maintenance or equipment replacement schedule for the remaining operational life of the Solar System.
