

SRP SHADE SCREEN AND WINDOW FILM REBATE PROGRAM

SAVE ENERGY. SAVE MONEY. SAVE WITH SRP.

Contractor Terms and Conditions Agreement

1. To qualify for a Shade Screen/Window Film Rebate, the installing contractor must complete the Contractor/Installer and Shade Screen/Window Film Information sections of the rebate application.
2. New or rebuilt, installed solar shade screens or window film must be installed on sunstruck windows only — that means east-, west- and south-exposed windows — to qualify for the rebate. The material of the solar shade screens must block at least 80% of the solar heat gain and the solar heat gain coefficient (SHGC) of the window film should be a maximum .45 for double-pane windows and .40 for single-pane windows. The screens must be installed on the exterior of clear glass windows that enclose an air-conditioned space while window film can be installed on the interior or exterior of clear glass windows that enclose an air-conditioned space. Motorized or retractable shade structures are not eligible for the rebate unless installed along with photocell solar sensor equipment. Eligible window film must be certified by the National Fenestration Rating Council (NFRC).
3. Failure to provide any of the required information, including signatures, will result in the return of the rebate application.
4. SRP reserves the right to inspect the installed shade screens/window film for compliance with the program requirements. If the shade screens/window film are selected for an inspection, the rebate will be withheld pending the outcome of the inspection. If the shade screens/window film are found in compliance, the rebate will be paid. If the shade screens/window film are not in compliance, the customer and contractor will be notified. To qualify for the rebate, the customer is responsible for negotiating with the contractor to bring the shade screens/window film into compliance. A reinspection using SRP's authorized inspectors must be completed and submitted to SRP. The contractor is responsible for the expense of a reinspection. SRP will process the application after receiving the reinspection documentation.
5. Program procedures, requirements and rebate levels are subject to change or cancellation without notice.
6. One rebate check will be issued per approved application to the person listed as the customer of record on the SRP account. If the customer agrees to release the rebate to the contractor, the contractor will receive the rebate.
7. SRP makes no representations and provides no warranty or guarantee with respect to the design, manufacture, construction, safety, performance or effectiveness of the shade screens or window film, including any warranties of merchantability or fitness for a particular purpose. The contractor selected by the customer is solely responsible for the proper installation of the shade screens or window film as well as the delivery and workmanship related to any equipment or services the customer procures. The customer is responsible for the selection and supervision of the contractor to ensure that the contractor complies with the requirements of the SRP Shade Screen/Window Film Rebate Program. SRP assumes no responsibility for the quality or oversight of contractor services.
8. The Terms and Conditions set forth herein constitute a complete statement of the Terms and Conditions applicable to this promotion and supersede all prior representations or understandings, whether written or oral. SRP shall not be bound by or liable for any statement, representation, promise, inducement or understanding of any kind that is not set forth herein. SRP reserves the right to change or cancel this promotion or its Terms and Conditions at any time.

By signing this application, the contractor certifies that the information above is correct and that the work has been performed in an acceptable manner.
