

Randy J. Miller

CANDIDATE NAME

Council

POSITION

District / Division 8

VOTING AREA

CANDIDATE INFORMATION

Randy Miller has served on the SRP Board since 2018 and is seeking re-election in 2026 for SRP Council Division 8. He is a Software Engineer with over 25+ years of professional experience and has spent his entire professional career working locally in Arizona. Randy has worked for Intel, Microsoft, GoDaddy, Phoenix Children’s Hospital, Cognizant, and Cloudmed (now R1).

Randy completed his Masters of Science in Computer Science from Columbia University in New York, NY and his Bachelors of Science in Computer Engineering from Case Western Reserve University in Cleveland, OH. He is a renewable energy advocate including distributed residential solar and battery storage installations. He has been driving a fully electric vehicle since 2012 and had solar panels installed on his home in 2010 to help reduce his own personal carbon footprint to help mitigate climate change.

When re-elected, Randy will work with SRP to utilize more renewable energy in the SRP overall energy portfolio while keeping rates affordable for all customers. He voted against the board approved rate increase that went into effect in Nov. 2025. Currently, around 50% of SRP ratepayers have no input into the elections process at SRP. Randy will also work to make sure all SRP ratepayers are represented in the voting process and increase voter participation among currently eligible voters in the SRP elections. Randy wants to use his engineering background to help SRP produce the most sustainable, affordable, and reliable energy to power the growth of the Valley of the Sun while making AI data centers and other large customers pay their fair share of the growth.
