CANDIDATE INFORMATION

As a fourth-generation East Valley resident, William ("Billy") P. Schrader, III has strong ties to this community and a deep love for Arizona. He has served as an elected Council member for Salt River Project over the past 12 years. He focuses on careful cooperation with SRP's management team and is thankful to work with so many talented and dedicated professionals. They are experts in their fields and Billy values their insights and recommendations. Billy is dedicated to advocating for the sustainable, reliable, and affordable delivery of power and water to his constituents. He is enthusiastic to continue this important work, and he will provide consistent and proven leadership as a Council member at SRP.

Billy's focus has always been to ensure that the well-being of SRP's customers and the stewardship of valuable natural resources remain at the center of the decisions he is responsible for making. He understands the weight of these responsibilities and strives to balance these interests for the benefit of the environment and for generations of Arizonans to come. Billy supports the responsible integration of renewable resources into the grid and has participated as a 100% solar customer in SRP's Community Solar Program since its inception in 2010.

Professionally, Billy spent nearly 25 years working in agriculture and many of those years managing operations for the family farm. He is also an entrepreneur and founded My Smart Home Guru, LLC, a company specializing in providing environmentally friendly solutions for efficiently managing automation of power and water resources for local businesses and residents.

Billy has been married to Kara Gibson Schrader for nearly 20 years, and they both enjoy serving in the community. Beyond his business ventures, he is committed to community service. Billy has supported the Alzheimer's Association, Dignity Health Foundation - East Valley, Folds of Honor, Hospice of the Valley, Habitat for Humanity, St. Mary's Food Bank, and Walking Down Ranch for many years.
