

# IRRIGATION

NEWS FOR SRP AGRICULTURAL & OTHER URBAN SHAREHOLDERS | SPRING 2023

## Coming Soon: 2nd Half Billing

On June 6, water payments are due for customers who took advantage of our first half billing option. In May, keep an eye out for the bill in the mail. Using online banking to pay your irrigation bill? Please be sure to update the payee address to SRP at P.O. Box 2952, Phoenix, AZ 85062-2952. Visit [srp.net/waterpayments](https://srp.net/waterpayments) for more payment options.

## Water Pricing

On March 28, the Board of Governors of the Salt River Valley Water Users' Association approved a new schedule of water charges, which will be effective during the 2024 calendar year.

You can view the rates and estimate your costs using the rate calculator at [srp.net/waterpricing](https://srp.net/waterpricing).

You may also request a copy of the 2024 water charges from the SRP Corporate Secretary's Office:

- By email to [CorporateSecretary@srpnet.com](mailto:CorporateSecretary@srpnet.com)
- By mail addressed to SRP Corporate Secretary, Mail Station PAB215, P.O. Box 52025, Phoenix, AZ 85072

If you have any questions regarding the 2024 water charges, written comments will be accepted through April 21 by email to [CorporateSecretary@srpnet.com](mailto:CorporateSecretary@srpnet.com) or by mail to the SRP Corporate Secretary's office (address listed above). On May 1, the

Board will meet to consider any comments received and determine whether changes are required.

District meetings will be held in person with the option to attend via teleconference. Additional information about District open meetings can be found at [srp.net/boardagenda](https://srp.net/boardagenda). For instructions on how to participate in the meetings, contact the Corporate Secretary's office at (602) 236-4398 or by email at [CorporateSecretary@srpnet.com](mailto:CorporateSecretary@srpnet.com).

## SRP Reservoirs at 88%

As of March 10, 2023, the SRP reservoir system was **88%** full at **2,010,820** acre-feet in storage. A year ago, the total system was **72%** full. Storage on the Salt River system is at **89%**; the two reservoirs on the Verde River are at a combined **81%** of capacity. Stay up to date on reservoir levels daily at [watershedconnection.com](https://watershedconnection.com).

Data is accurate as of March 10, 2023.

## Understanding Roles and Responsibilities

Roles and responsibilities of irrigation customers and SRP are important components in ensuring we conserve as much water as we can by managing this resource wisely. SRP installs, operates and maintains water delivery systems that are composed of canals, laterals and gates to deliver water to your neighborhood delivery point. Irrigation customers and their neighbors are responsible for installing, operating and maintaining the private neighborhood irrigation system which begins where the SRP-managed

structures end. Understanding roles and responsibilities helps us work together to preserve water in the Valley. Be sure to only order the amount of water that is needed to efficiently meet the needs of your landscape and that can be contained on your property. For additional information, see [srp.net/systemcare](https://srp.net/systemcare) and [srp.net/irrigationbenefits](https://srp.net/irrigationbenefits).

**TIP:** You can also view this information in the Irrigation Owner's Manual by logging in to your SRP My Account™ profile and selecting the document in **My profile & settings > Document center**.

# Protecting Our Water Supply

Water is a precious resource, and our goal is to make sure there is enough for now and for future generations. To create a supply of water that is large enough to meet the Valley’s needs, an expansive system of storage and water sources is needed. Along with SRP’s reservoirs, our infrastructure enhances the reliability of our water supply. To learn more, visit [blog.srpnet.com/water](https://blog.srpnet.com/water).

P.O. Box 52025 | Phoenix, AZ 85072-2025
