IMPORTANT NOTICE TO CONTRACTOR

By issuing this Hot Work Permit, SRP makes no guarantee and assumes no responsibility as to safety or liability. This permit is not intended to replace or supersede the contractor's safety procedure or contractual obligations. Contractors performing hot work under this permit are responsible for performing the contracted work in conformance with all environmental, health and safety laws, regulations, and good industry and workmanship standards. It is the contractor's responsibility to independently ensure that all necessary safety and fire prevention measures are taken in compliance with all statutory, regulatory, and industry standards and requirements regarding occupational health and safety when operating under this Hot Work Permit.

NAME OF CONTRACTOR'S REPRESENTATIVE _____

NAME OF CONTRACTING FIRM _____

CONTRACTOR'S SIGNATURE AND DATE _____

OK HOT WORK CHECKLIST N/A

- Sprinklers and hose streams in service/operable
- Hot work equipment in good condition (e.g., power source, welding leads and torches)
- Appropriate fire extinguisher (minimum 2A-20ABC) and employees trained in its use
- Work area shielded and/or barricaded
- Adequate ventilation or ventilation equipment required
- Adjacent personnel notified of hot work
- Overhead areas clear of coal dust (NGS/CGS)

REQUIREMENTS WITHIN 35 FEET OF WORK

- Dust, lint, debris, flammable liquid and oily deposits removed; floors swept clean
- Explosive atmosphere in area eliminated
- Combustible floors (e.g., wood, tile and carpeting) wet down and covered with damp sand or fire blankets
- Flammable and combustible materials removed where possible, otherwise protected with fire blankets, guards or metal shields
- All wall and floor openings covered
- Walkways protected beneath hot work

WORK ON WALLS OR CEILING

- Combustibles moved away from other side of wall

WORK IN CONFINED SPACE

- Confined space cleaned of combustibles (e.g., grease, oil and flammable vapors)
- Containers purged of flammable liquids/vapors
- Follow confined-space guidelines

FIRE WATCH/HOT WORK AREA MONITORING

FIRE WATCH REQUIRED: YES NO

- Fire watch will be provided during and for 60 minutes after work, including any coffee or lunch breaks
- Fire watch is supplied with a minimum 2A-20ABC rated extinguisher and makes use of other extinguishers located throughout work area
- Fire watch is trained in use of this equipment (fire extinguisher) and familiar with location of sounding fire alarm
- Fire watch may be required for opposite side of walls, above and below floors, and ceilings
