Pre-Qualification Tier Criteria			
Tier Group	Standard	Type of work	Notes
Tier 1	1910.269 1926 Sub V	Any contract construction and/or maintenance work in which SRP meets 269 "host employer" definition (Subs, Line ROW, Generation).	Example: Any contractor touching or exposed to the Grid while performing the work required by their contract. The "Grid" includes Generation, Transmission and Distribution installations, lines, and equipment.
Tier 2	1910 1926	Any construction and/or maintenance contract work that has a greater than minimal safety hazard exposure and is not classified as Tier 1.	Example: Contractor performing services listed as High Exposure to Risk on the Risk Matrix and not exposed to or working directly on the grid.
EXEMPT		Minimal Exposure	Examples: Contractors providing services listed as Low Exposure to Risk on the Risk Matrix.

Note: A Contractor that performs work in multiple Tiers or Risk Exposures will be classified by the highest level of worked performed.
