SRP BUSINESS SOLUTIONS

Offering business customers up to $300,000 per year in energy efficiency rebates.

Effective FY24 (May 1, 2023–April 30, 2024)
# Standard Business Solutions

## Description
This program provides rebates for common energy efficiency measures, including high-efficiency lighting, HVAC, building envelope, compressed air and refrigeration equipment, as well as select sensors and controls.

## What Qualifies
Measures must meet equipment catalog/program guidelines:

- **Lighting**
- **Lighting controls**
- **HVAC**
- **Energy management systems (EMSs)**
- **Variable-frequency drives (VFDs)**
- **Building envelope (window film/shade screens), cool roof coating, roof/ceiling insulation**
- **Compressed air equipment**
- **Refrigeration equipment and controls**
- **Building controls**
- **IT and data center equipment**
- **Kitchen equipment**
- **Pool pump VFDs**
- **Heat pump water heaters**

## Rebates

<table>
<thead>
<tr>
<th>Measure Description</th>
<th>Rebate Range</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Interior lighting</strong></td>
<td>$0.25–$0.35 per watt (W) reduced</td>
</tr>
<tr>
<td><strong>Interior lighting controls</strong></td>
<td>up to $0.40 per watt controlled</td>
</tr>
<tr>
<td><strong>Exterior lighting</strong></td>
<td>$0.15 per W reduced</td>
</tr>
<tr>
<td><strong>Unitary heat pumps</strong></td>
<td>$110–$135 per ton</td>
</tr>
<tr>
<td><strong>Variable-frequency drives</strong></td>
<td>$90–$300 per horsepower (hp), depending on application</td>
</tr>
<tr>
<td><strong>Building envelope</strong></td>
<td>$0.75 to $0.80 per square foot for window film and shade screens</td>
</tr>
<tr>
<td><strong>Refrigeration, compressed air and data center equipment</strong></td>
<td>varies</td>
</tr>
<tr>
<td><strong>HVAC controls</strong></td>
<td>(sensors, thermostats and advanced rooftop controls) varies</td>
</tr>
<tr>
<td><strong>Energy management systems</strong></td>
<td>$0.20–$0.30 per square foot of conditioned space</td>
</tr>
<tr>
<td><strong>Additional HVAC opportunities available, incentives vary</strong></td>
<td></td>
</tr>
<tr>
<td><strong>HE server replacement (retro) and server virtualization</strong></td>
<td></td>
</tr>
</tbody>
</table>

## When to Apply

- **Lighting retrofit**: Preapproval is required prior to purchasing, ordering or installing.
- **Other measures**: Post-purchase is allowed. Retrofit and new construction projects are eligible.

## Key Benefits

- Lower electric bills
- Lower initial cost
- Less downtime and fewer repairs
- Lower maintenance costs
- Improved comfort in the workspace

## How Do I Apply?
Detailed program information and forms are available at [savewithsrpbiz.com](http://savewithsrpbiz.com) or by calling us at (602) 236-3054.
SRP Business Solutions offers a wide range of energy efficiency opportunities, including rebates for technical assistance and equipment installation. There’s a rebate for every size and type of business and industry.

| **WHAT QUALIFIES**        | Most equipment that reduces annual energy consumption and energy consumption during SRP’s summer peak period is eligible. Equipment must not be eligible for a rebate under the Standard program. **EXAMPLES:**  
  • Central plant controls optimization  
  • Compressor replacements in chillers  
  • Upgrading refrigeration compressors and condensers  
  • Conversion from constant air volume to variable air volume  
  • Improvements to the building envelope |
| **PRELIMINARY ASSESSMENTS ARE AVAILABLE FOR:** |  
  • Receive electrical service on a qualifying E-60 series rate plan  
  • Non-HVAC pumping systems with at least 25 hp, excluding backup  
  • Data centers larger than 1,000 square feet  
  • Compressed air system leak assessment between 25 and 100 hp |
| **REBATES**               |  
  • **Equipment:** $0.08 per kilowatt-hour for the first year of electricity savings plus $300 per average peak kW saved, up to 75% of the incremental custom cost  
  • **Pump assessment:** Up to $500 per pump, with a max of $3,000  
  • **Compressed air system leak assessment:** 100% up to $25 per hp  
  • **Preliminary assessment:** 100% funded up to $3,000  
  • **Technical assessment:** 50% of the preapproved cost, up to $15,000; 100% (up to a maximum of $30,000) if suggested improvements are made |
| **WHEN TO APPLY**         | Retrofits: Preapproval is required prior to purchasing, ordering or installing. **New construction and end-of-useful life replacements:** Post-purchase is allowed, but customers proceed at risk of not receiving a rebate. |
| **KEY BENEFITS**          |  
  • Lower electric bills  
  • Increased productivity and system reliability  
  • Lower maintenance costs  
  • Reduced annual operating expenses  
  • Improved comfort in the workspace  
  • In-depth system analysis for qualifying projects |
