

# COOL CASH REBATE PROGRAM

## Contractor Terms and Conditions Agreement

1. To qualify for a Cool Cash Rebate, the installing contractor must:
  - a. Be licensed in the state of Arizona to install residential air-conditioning units.
  - b. Certify that the cooling load for this application was estimated consistent with ACCA Manual J or equivalent procedures, and that the capacity of the equipment installed is within 15% or a half-ton of this estimate. Provide a copy of the worksheet used to identify proper sizing if a single-stage system is installed.
  - c. Certify that the system's airflow is within +/- 10% of the blower's rated capacity.
  - d. Certify that the refrigerant charge is within +/- 5% of the manufacturer's specifications.
  - e. Complete the Contractor/Installer and Equipment Information sections of the rebate application. Sign the Program Compliance section of the rebate application.
2. Failure to provide any of the required information, including signatures, will result in the return of the rebate application.
3. SRP reserves the right to inspect the installed units for compliance with the program requirements. If an installed unit is selected for an inspection, the rebate will be withheld pending the outcome of the inspection. If the unit is found to be in compliance, the rebate will be paid. If the unit is not in compliance, the customer and contractor will be notified. To qualify for the rebate, the customer is responsible for negotiating with the contractor to bring the unit into compliance. A reinspection using SRP's authorized inspectors must be completed and submitted to SRP. The contractor is responsible for the expense of a reinspection. SRP will process the application after receiving the reinspection documentation.
4. Program procedures, requirements and rebate levels are subject to change or cancellation without notice.
5. One rebate check will be issued per approved application to the person listed as the customer of record on the SRP account (limit five per customer). If the customer agrees to release the rebate to the contractor, the contractor will receive the rebate.
6. New construction and installations in garages and other non-habitable spaces are not eligible.
7. SRP makes no representations and provides no warranty or guarantee with respect to the design, manufacture, construction, safety, performance or effectiveness of the newly installed equipment, including any warranties of merchantability or fitness for a particular purpose. Responsibility for proper sizing of equipment, as well as delivery and workmanship related to any equipment or services the customer procures, exclusively rests with the contractor selected by the customer. Responsibility for supervision of the contractor to ensure that the contractor complies with the requirements of the SRP Cool Cash Rebate Program rests with the customer. SRP assumes no responsibility for oversight of contractor services.
8. The Terms and Conditions set forth herein constitute a complete statement of the Terms and Conditions applicable to this promotion and supersede all prior representations or understandings, whether written or oral. SRP shall not be bound by or liable for any statement, representation, promise, inducement or understanding of any kind that is not set forth herein. SRP reserves the right to change or cancel this promotion or its Terms and Conditions at any time.

By signing this application, the contractor certifies that the information above is correct and that the work has been performed in an acceptable manner.
