Subject: SRP's New Buy-Through Program

Origis Energy has been following SRP's new Buy-Through program and have a couple large C&I customers interested. I wanted to confirm that as a renewable energy IPP, Origis would be responsible for the offtaker's energy 24/7 including non-solar hours? We are planning to include a 4-hour battery but there would still be overnight hours of concern.

Thanks,

John Deese
