SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

BUSINESS COMMUNITY SOLAR PILOT RIDER

SUPPLEMENTAL TO GENERAL SERVICE PRICE PLANS E-32 AND E-36
PUMPING PRICE PLANS E-47 AND E-48
LARGE GENERAL SERVICE PRICE PLANS E-61, E-63, E-65 AND E-66

Effective: May 2019 Billing Cycle
Supersedes: April 2015 Billing Cycle

AVAILABILITY:
The Business Community Solar Pilot Rider is currently frozen from new participation.

APPLICABILITY:
To customers receiving and qualifying for electric service under Standard Price Plans E-32, E-36, E-47, E-48, E-61, E-63, E-65 or E-66. Not available to other customers.

CONDITIONS:
A. Customer shall purchase energy based on the “Customer Account Attributed Share” of the capacity of one or more designated renewable facilities (the “Facility”).

B. The Customer Account Attributed Share will be a share of the capacity of the Facility subscribed to by the Customer subject to limits determined by SRP.

C. The amount of energy generated by the Facility is variable depending on a number of factors including, but not limited to, weather, ambient temperature, and scheduled and unplanned outages. SRP does not guarantee that any minimum quantity of energy will be produced. Customers shall receive their pro rata share of any energy produced by the Facility on an equal basis with all other participants in the rider and SRP. If SRP’s right or ability to purchase energy from the Facility is terminated for any reason, SRP may terminate this rider by providing written notice to Customer.

D. The Customer Account Attributed Share for each Customer Account is capped at 35% of Customer’s peak demand for the Customer Account. Customer’s peak demand for the Customer Account is determined by reference to the highest kilowatt usage reading in the current billing period or the preceding 15 billing periods (on peak, shoulder peak, or off peak), whichever is greater. Customer must subscribe to a minimum of 1 kW of capacity per Customer Account. The Customer Account Attributed Share may be decreased by SRP in the event of decreases in Customer’s peak demand.
E. SRP will retain all of the “Environmental Attributes” associated with the renewable energy produced by the Facility. Environmental Attributes, also known as Renewable Energy Certificates (RECs), include all existing or future non-energy attributes of renewable energy generation including all compliance and marketing aspects of the energy generation.

F. Accounts participating in this rider are prohibited from receiving any other renewable energy incentive payments from SRP. If an account has already received a renewable energy incentive payment from SRP it is not eligible to participate in this rider.

G. If a Customer Account participating in this rider is closed prior to the end of the Initial Term (as defined below), Customer shall transfer the Customer Account Attributed Share to another of Customer’s accounts which is eligible to participate in the rider and is reasonably acceptable to SRP. If a Customer Account participating in this rider is closed after the end of the Initial Term, Customer may elect to move the Customer Account Attributed Share to another eligible account reasonably acceptable to SRP or terminate participation.

H. As a pilot rider, this rider is subject to change or termination at any time, with the approval of the SRP Board.

PRICE AND TERMS:

A. SRP shall sell and Customer shall purchase energy at a fixed price, and from the Facility, as approved by the SRP Board for all energy attributable to the Customer Account Attributed Share for the relevant Customer Account. The Facility and the price for energy will be posted on SRP’s website www.srpnet.com. Charges including the Monthly Service Charge, Demand Charge, Facilities Charge, and Dedicated Facilities Charge remain in effect as determined by SRP. Supplemental power and energy will be purchased by Customer under its applicable Price Plan.

B. The term of participation in the rider shall commence on the date Customer first takes service under this rider and continue for a period of three years (the “Initial Term”). After the Initial Term, Customer may choose to continue to participate under the rider for a period of up to seven additional years (ten years total). Customer may terminate service under this rider at any time after the Initial Term by providing SRP with 30 days prior written notice. If Customer elects to terminate participation in this rider prior to the end of the Initial Term, the Customer Account(s) affected shall not be eligible to again participate in any renewable energy incentive program offered by SRP until the day following the tenth anniversary of the start of the Initial Term. SRP reserves the right to increase or decrease the prices in this rider, but in no event will Customer pay more for energy under this rider than the price paid by Customer at the start of the Initial Term.
C. Customer shall be obligated to purchase all of the energy attributable to the Customer Account Attributed Share for each Customer Account regardless of Customer’s actual demand with respect to the applicable Customer Account. Any energy attributable to a Customer Account under this rider in excess of Customer’s demand for the relevant Customer Account during any applicable billing period will be subject to SRP’s Renewable Net Metering Rider or Buyback Service Rider, whichever is applicable based upon subscription size.

RULES AND REGULATIONS:
Service under this rider shall be in accordance with the terms of SRP’s Rules and Regulations, as they may be amended or revised by SRP from time to time. Failure by a customer to comply in all material respects with SRP’s Rules and Regulations may result in SRP terminating electric service to the customer.

ADJUSTMENTS:
SRP will increase or decrease billings under the rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

BUYBACK SERVICE RIDER

SUPPLEMENTAL TO GENERAL SERVICE PRICE PLANS E-32 AND E-36
LARGE GENERAL SERVICE PRICE PLANS E-61, E-63, E-65, E-66 AND E-67

Effective: May 2019 Billing Cycle
Supersedes: May 2015 Billing Cycle

APPLICABILITY:
To those cogeneration and small power production customers served by SRP under Standard Price Plans E-32, E-36, E-61, E-63, E-65, E-66, E-67 or the Critical Peak Experimental Price Plan who purchase power and energy provided by SRP and who are qualified to sell power and energy back to SRP.

CONDITIONS:
A. To segregate load between firm service and buyback service, one or more meters are required. The customer's purchases from and sales to SRP must be measured separately. The customer is required to provide a metering service entrance for all meters and pay the costs for any additional meter(s).

B. At SRP’s request, the customer must sign SRP’s then-current form of Interconnection Agreement as a condition of service under this rider.

C. The customer shall pay SRP for interconnection costs prior to commencement of service under this rider. Interconnection costs include but are not limited to reasonable costs of connection, switching, relaying, metering, transmission, distribution, safety provisions, engineering studies and administrative costs incurred by SRP directly related to the installation of the physical facilities necessary to permit interconnected operations.

D. A customer may cancel service under this rider. The customer may not subsequently elect service under this rider for at least one year after the effective date of cancellation.

CREDIT:

\[
\text{Buyback Credit} = \sum [(\text{Hourly Buyback Energy}) \times (\text{Hourly Indexed Energy Price} - \$0.00032/\text{kWh})]
\]

where:

Hourly credits are summed across all hours in the billing cycle. Hourly credits are the product of the hourly energy sold to SRP and the adjusted Hourly Indexed Energy Price. The Hourly Buyback Energy component consists of the energy sold to SRP by
Buyback Service Rider

the customer when generation exceeds total consumption in a given hour. The adjusted Hourly Indexed Price is the product of the Intercontinental Exchange Palo Verde Peak, Off-Peak, or Off-Peak Sunday 1X16 price (or another comparable index if the Intercontinental Exchange is no longer available), multiplied by the Hourly Pricing Percentage. The Hourly Pricing Percentage is determined by SRP and “shapes” the Intercontinental Exchange Peak, Off-Peak, and Off-Peak Sunday 1X16 prices, based on historical hourly prices.

The price adjustment of $0.00032/kWh represents the cost incurred by SRP for scheduling, system control and dispatch services.

ADJUSTMENTS:
SRP will increase or decrease billings under this rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
SAULT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

COMMUNITY SOLAR FOR SCHOOLS PILOT RIDER

SUPPLEMENTAL TO GENERAL SERVICE PRICE PLANS E-32 AND E-36
LARGE GENERAL SERVICE PRICE PLAN E-61

Effective: May 2019 Billing Cycle
Supersedes: April 2015 Billing Cycle

AVAILABILITY:
The Community Solar for Schools Pilot Rider is currently frozen from new participation.

APPLICABILITY:
To K-12 public schools, public school districts, and non-profit charter schools receiving and qualifying for electric service under Standard Price Plans E-32, E-36 or E-61. Not available to other customers.

CONDITIONS:
A. Customer shall purchase energy based on the “Customer Account Attributed Share” of the capacity of one or more designated renewable facilities (the “Facility”).

B. The Customer Account Attributed Share will be a share of the capacity of the Facility subscribed to by the Customer subject to limits determined by SRP.

C. The amount of energy generated by the Facility is variable depending on a number of factors including, but not limited to, weather, ambient temperature, and scheduled and unplanned outages. SRP does not guarantee that any minimum quantity of energy will be produced. Customers shall receive their pro rata share of any energy produced by the Facility on an equal basis with all other participants in the rider and SRP. If SRP’s right or ability to purchase energy from the Facility is terminated for any reason, SRP may terminate this rider by providing written notice to Customer.

D. The Customer Account Attributed Share for each Customer Account is capped at 35% of Customer’s peak demand for the Customer Account. Customer’s peak demand for the Customer Account is determined by reference to the highest kilowatt usage reading in the current billing period or the preceding 15 billing periods (on peak, shoulder peak, or off peak), whichever is greater. Customer must subscribe to a minimum of 1 kW of capacity per Customer Account. The Customer Account Attributed Share may be decreased by SRP in the event of decreases in Customer’s peak demand.
E. SRP will retain all of the “Environmental Attributes” associated with the renewable energy produced by the Facility. Environmental Attributes, also known as Renewable Energy Certificates (RECs), include all existing or future non-energy attributes of renewable energy generation including all compliance and marketing aspects of the energy generation.

F. Accounts participating in this rider are prohibited from receiving any other renewable energy incentive payments from SRP. If an account has already received a renewable energy incentive payment from SRP it is not eligible to participate in this rider.

G. If a Customer Account participating in this rider is closed prior to the end of the Initial Term (as defined below), Customer shall transfer the Customer Account Attributed Share to another of Customer’s accounts which is eligible to participate in the rider and is reasonably acceptable to SRP. If a Customer Account participating in this rider is closed after the end of the Initial Term, Customer may elect to move the Customer Account Attributed Share to another eligible account reasonably acceptable to SRP or terminate participation.

H. As a pilot rider, this rider is subject to change or termination at any time, with the approval of the SRP Board.

PRICE AND TERMS:
A. SRP shall sell and Customer shall purchase energy at a fixed price, and from the Facility, as approved by the SRP Board for all energy attributable to the Customer Account Attributed Share for the relevant Customer Account. The Facility and the price for energy will be posted on SRP’s website www.srpnet.com. Charges including the Monthly Service Charge, Demand Charge, Facilities Charge, and Dedicated Facilities Charge remain in effect as determined by SRP. Supplemental power and energy will be purchased by Customer under its applicable Price Plan.

B. The term of participation in the rider shall commence on the date Customer first takes service under this rider and continue for a period of two years (the “Initial Term”). After the Initial Term, Customer may choose to continue to participate under the rider for a period of up to eight additional years (ten years total). Customer may terminate service under this rider at any time after the Initial Term by providing SRP with 30 days prior written notice. If Customer elects to terminate participation in this rider prior to the end of the Initial Term, the Customer Account(s) affected shall not be eligible to again participate in any renewable energy incentive program offered by SRP until the day following the tenth anniversary of the start of the Initial Term. SRP reserves the right to increase or decrease the prices in this rider, but in no event will Customer pay more for energy under this rider than the price paid by Customer at the start of the Initial Term.
Community Solar for Schools Pilot Rider

C. Customer shall be obligated to purchase all of the energy attributable to the Customer Account Attributed Share for each Customer Account regardless of Customer's actual demand with respect to the applicable Customer Account. Any energy attributable to a Customer Account under this rider in excess of Customer’s demand for the relevant Customer Account during any applicable billing period will be subject to SRP’s Renewable Net Metering Rider.

RULES AND REGULATIONS:
Service under this rider shall be in accordance with the terms of SRP’s Rules and Regulations, as they may be amended or revised by SRP from time to time. Failure by a customer to comply in all material respects with SRP’s Rules and Regulations may result in SRP terminating electric service to the customer.

ADJUSTMENTS:
SRP will increase or decrease billings under the rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.

CUSTOMIZED INTERRUPTIBLE RIDER

SUPPLEMENTAL TO GENERAL SERVICE PRICE PLANS E-32 AND E-36
PUMPING PRICE PLANS E-47 AND E-48
LARGE GENERAL SERVICE PRICE PLANS E-61, E-63, E-65 AND E-67

Effective: May 2019 Billing Cycle
Supersedes: November 2012 Billing Cycle

APPLICABILITY:
To customers receiving and qualifying for electric service under Standard Price Plans E-32, E-36, E-47, E-48, E-61, E-63, E-65 or E-67 and who have a minimum curtailable load of 100 kilowatts (kW). Total interruptible load served under the Customized Interruptible Rider and E-66 Price Plan is limited to 205 MW in aggregate and allocated between the rider and price plan as determined solely by SRP.

CONDITIONS:
Any customer taking service under this rider will be eligible for credits in exchange for curtailments or making load available for curtailment at the request of SRP. All conditions will be specified in a written Curtailment Agreement between SRP and the customer. These conditions include, but are not limited to, the following:

A. The amount of the credit will be determined by SRP based on the following criteria as solely determined by SRP:

   1) The credit shall not exceed SRP’s avoided cost of generation and, if applicable, transmission.
   2) The number of interruptions allowed.
   3) The types of interruptions allowed (economic, emergency and/or other).
   4) The duration of the interruptions.
   5) The length of the advance notice of curtailment required.
   6) Amount of load to be curtailed.

B. A customer’s failure to curtail load will result in loss of credits and may result in removal from the program, at SRP’s option, without notice.

C. Curtailments may be issued using direct control, fax, phone, e-mail, electronic buzzer or other mutually agreed to devices.

D. Any customer choosing to participate in this rider will not be eligible for discounts under other interruptible riders, curtailment programs or load control programs.
Customized Interruptible Rider

**ADJUSTMENTS:**
SRP will increase or decrease billings under this rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

ENERGY FOR EDUCATION PILOT RIDER

SUPPLEMENTAL TO GENERAL SERVICE PRICE PLANS E-32 AND E-36
LARGE GENERAL SERVICE PRICE PLAN E-61

Effective: May 2019 Billing Cycle
Supersedes: November 2012 Billing Cycle

AVAILABILITY:
Participation is determined solely by SRP. No more than 10 customers and no more than 50 accounts may concurrently participate in the pilot. This rider is frozen from new participation.

APPLICABILITY:
To public schools, public school districts, or charter schools receiving and qualifying for electric service under General Service Price Plans E-32 and E-36 and Large General Service Plan E-61. Not available to other customers. Projects must meet the participation requirements established by applicable legislation.

CONDITIONS:
A. Customers taking service under this rider will pay for service based on metered kilowatt (kW) and kilowatt-hours (kWh) and for costs associated with equipment replacement or retrofitting at the customer’s site. In computing the payments attributable to such equipment costs, SRP may amortize the costs using a rate of return no less than SRP’s long term cost of debt, but in no event greater than the interest rate provided by A.R.S. § 42-1123.

B. The initial term of each agreement will be determined by SRP and agreed to by the customer.

C. Additional terms and conditions for participation in this pilot program will be identified in a separate written agreement between SRP and the participating customer.

D. Customers participating in the program and installing a solar electricity conversion system may receive the incentive offered under SRP’s Residential EarthWise Solar Energy Program.

E. As a pilot rider, this rider is subject to change or termination at any time, with the approval of the SRP Board.
Energy for Education Pilot Rider

RULES AND REGULATIONS:
Service under this rider shall be in accordance with the terms of SRP’s Rules and Regulations, as they may be amended or revised by SRP from time to time. Failure by a customer to comply in all material respects with SRP’s Rules and Regulations may result in SRP terminating electric service to the customer.

ADJUSTMENTS:
SRP will increase or decrease billings under the rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

FULL ELECTRIC SERVICE REQUIREMENTS RIDER

SUPPLEMENTAL TO GENERAL SERVICE PRICE PLANS E-32 AND E-36
LARGE GENERAL SERVICE PRICE PLANS E-61, E-63, E-65, E-66 AND E-67

Effective: May 2019 Billing Cycle
Supersedes: April 2015 Billing Cycle

AVAILABILITY:
For purposes of economic development, and for customers with loads (individual accounts or in aggregate) of at least 1 MW. Economics of discounts must benefit all SRP customers.

APPLICABILITY:
To accounts receiving and qualifying for electric service under a General Service or Large General Service Price Plan.

CHARACTER OF SERVICE:
Must meet all service requirements for the applicable Standard Price Plan.

CONDITION:
A. For customers with loads of 1 MW or more (individual accounts or aggregate), discounts on the Energy and FPPAM components may be offered if the following terms and conditions are met (no discount will apply to Transmission or Distribution):

1. Customer must have current or potential energy alternatives.

2. Prices, post-discount, to be commensurate with the customer’s cost for energy alternative(s).

3. Customer must sign a term agreement in exchange for discounts.

4. Energy revenue from the customer shall exceed the marginal cost of serving that customer over the term of the contract.

5. SRP management shall report terms, conditions and discounts of new agreements to the Board on a quarterly basis.

ADJUSTMENTS:
SRP will increase or decrease billings under this rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

LIGHTING EQUIPMENT RIDER

SUPPLEMENTAL TO GENERAL SERVICE PRICE PLANS E-32, E-34 AND E-36
LIGHTING SERVICE PRICE PLANS E-56 AND E-57

Effective: April 2015 Billing Cycle
Supersedes: November 2012 Billing Cycle

AVAILABILITY:
Lighting service is available for: (a) customers with lighting facilities previously or newly installed and currently owned by SRP receiving service under the E-32, E-34, E-36 or E-56 Price Plans; and (b) customers with facilities previously installed and currently owned by SRP receiving service for outdoor lighting for security purposes under the E-57 Price Plan. This rider is not available to municipal, state, county or other governmental customers.

APPLICABILITY:
This Rider is applicable to:

CONDITIONS:
A. Lighting installations require a written contract for an initial term of ten (10) years. At any time after expiration or termination of the contract, SRP may transfer ownership of the equipment to Customer or, in its discretion, remove the lighting facilities, and discontinue service under this rider. Ownership of lighting facilities may also transfer during the contract period upon mutual agreement between SRP and the customer.

B. High pressure sodium lamps must be used in all lamp replacements and installations provided by SRP.

C. Availability of lumen sizes varies by style.

D. Items for which no equipment charge has been included in this rider will be billed at a charge determined by SRP.
E. All units and equipment listed in this rider may not be available for repair or replacement.

F. Applicable monthly charges or credits may be converted to daily amounts. The amounts would be annualized and then converted to daily charges or credits.

Published: March 26, 2019
ADJUSTMENTS:
SRP will increase or decrease billings under this rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
AVAILABILITY:
Where facilities of adequate capacity are available.

APPLICABILITY:
Limited to Customers qualifying for and receiving electric service under Standard Price Plans E-65, E-66 or E-67.

CHARACTER OF SERVICE:
Sixty hertz alternating current, three-phase.

CONDITIONS:
A. At any time at which the aggregate loads of the customers participating in this rider total more than 150 MW, participation by any additional customer will be at SRP’s sole discretion.

B. A customer may not cancel participation in this rider without SRP’s approval, in its sole discretion. If SRP permits a customer to cancel its participation in this rider, that customer may not subsequently participate in this rider without SRP’s approval, in its sole discretion.

C. As a pilot rider, this rider is subject to change or termination at any time, with the approval of the SRP Board.

MONTHLY CHARGE:
Charges imposed under this rider do not displace or reduce charges incurred as a result of service under the applicable Large General Service Price Plan, except the customer will not be charged the Fuel and Purchased Power Adjustment per-kWh component for energy delivered to the customer.

In lieu of the monthly Fuel and Purchased Power Adjustment charge under the applicable Large General Service price plan, the customer will pay a “Market Price Charge” based on the Intercontinental Exchange (ICE) Day Ahead Firm Palo Verde Peak Weighted Average Index (for all days Monday through Saturday, excluding NERC Holidays) (“On-Peak Index”), ICE Day Ahead Firm Palo Verde Off-Peak Sunday 1X16 Weighted Average Index (for Sundays, excluding NERC Holidays), or the applicable ICE Palo Verde Off-Peak price (for NERC Holidays) (or, in each case, another comparable index reasonably selected by SRP in the event a foregoing index is not
published or is no longer available) for the month, adjusted to reflect losses. If the specified index is not published on any applicable day, the default index will be the On-Peak Index for the next succeeding day. “NERC Holidays” means NERC Additional Off-Peak Holidays as approved by the North American Electric Reliability Council (NERC) Resources Committee and published by NERC, as updated from time to time by NERC. The Market Price Charge will be recalculated monthly.
Availability:
Where facilities of adequate capacity are available.

Applicability:

Character of Service:
Sixty hertz alternating current, three-phase.

Conditions:
A. At the discretion of SRP, Returning Customers may be served under this rider. Further, such customers may be removed from this rider and receive service under an applicable SRP Standard Price Plan at any time and without prior notice.

B. Availability of the Monthly Energy Index Rider is to be determined on a customer by customer basis and subject to approval at the sole discretion of SRP.

C. Customer must be in good standing with SRP (all arrears brought current or arrangements suitable to SRP have been made and necessary deposits have been posted) to receive service under this rider.

1Returning Customers are customers with annual consumption of more than 100,000 kWh and who wish to return to SRP for energy service after having previously chosen to purchase energy service from a provider other than SRP. Annual consumption to be measured over the most recent 12 month period on an individual account basis. SRP will project annual usage when less than 12 months of billing data exists.
DETERMINATION OF PRICE:
Customers receive a flat Monthly Average Energy Charge that replaces the Energy and Fuel and Purchased Power price components in the applicable price plan. All other elements of the price plan remain the same. The Monthly Average Energy Charge is based on the firm prices for the Weighted Average Price of Electricity Traded at Palo Verde, Arizona from the Intercontinental Exchange index (or another comparable index in the event the Intercontinental Exchange index is no longer available) for the month and adjusted to reflect losses, individual customer load factors and an administrative fee. The Monthly Average Energy Charge is recalculated monthly.

An example of how the Monthly Average Energy Charge is calculated for July 2001 is presented below. Once the base energy price is determined, adjustments are made for losses, individual customer load factors and an administrative fee.

---

2 Annual energy prices can be offered if:

1) Customer commits to SRP generation service for 1 year.
2) Costs, risks, and cost of risk management are factored into price.

Average Price for July 2001: $61.44

In this example the base energy price for July 2001 is $61.44/MWh or $0.06144/kWh. This energy price is then adjusted for losses, load factor and an administrative fee according to the schedules below.
Loss Adjustments:
The following table outlines loss factors used to adjust the base energy price:

<table>
<thead>
<tr>
<th>Service Level</th>
<th>Summer</th>
<th>Winter</th>
</tr>
</thead>
<tbody>
<tr>
<td>Distribution (E20s, E30s, E-40s, E50s)</td>
<td>1.0566</td>
<td>1.0599</td>
</tr>
<tr>
<td>LGS – Secondary (E-61)</td>
<td>1.0534</td>
<td>1.0580</td>
</tr>

<tr>
<td>80+ – 90</td>
<td>-9.50</td>
<td>-7.00</td>
</tr>
<tr>
<td>90+ – 100</td>
<td>-14.25</td>
<td>-10.50</td>
</tr>
</tbody>
</table>

Administration Fee:
An administration fee of 1.0 percent applies.
Example: Using the July 2001 Energy Price of $61.44/MWh and assuming a secondary LGS customer (E-61) with a load factor between 80 percent and 90 percent, the Monthly Average Energy Price for July 2001 would be calculated as follows:

Base Energy Price: $61.44 per MWh
Plus Losses: x 1.0534
$64.72
Load Factor Adjustment: x 0.905
$58.57
1% Admin Fee: +$0.59
$59.16 per MWh
or
$0.0592 per kWh

ADJUSTMENTS:
SRP will increase or decrease billings under the rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

RENEWABLE ENERGY CREDIT PILOT RIDER

SUPPLEMENTAL TO RESIDENTIAL PRICE PLANS E-13, E-14, E-15, E-21, E-22, E-23, E-26, E-27 AND E-29
GENERAL SERVICE PRICE PLANS E-32 AND E-36
PUMPING PRICE PLANS E-47 AND E-48
LARGE GENERAL SERVICE PRICE PLANS E-61, E-63, E-65, E-66 AND E-67

Effective: May 2019 Billing Cycle
Supersedes: May 2016 Billing Cycle

AVAILABILITY:
Enrollment is subject to equipment availability and administrative capability, and is limited to available Renewable Energy Certificates (RECs) associated with energy generated from renewable resources, in each case as determined by SRP, in its sole discretion. Subject to equipment and REC availability, this pilot rider will be open to participation by new customers until May 1, 2021.

APPLICABILITY:
To customers who are being served under the Standard Price Plans E-13, E-14, E-15, E-21, E-22, E-23, E-26, E-27, E-29, E-32, E-36, E-47, E-48, E-61, E-63, E-65, E-66 or E-67, subject to and in accordance with the terms and conditions of specific programs established under this rider (each, a “REC Program”), under which a customer may either purchase RECs or participate in SRP’s retirement of RECs, in either case associated with energy generated from renewable resources selected by SRP.

CONDITIONS:
A. SRP may, in its sole discretion, implement or terminate REC Programs, and modify the terms and conditions, including the applicability, of any REC Program.

B. Service shall be for a period determined by SRP.

C. Unless a REC Program requires a minimum term, a customer may cancel service at any time. Cancellation becomes effective at the end of the billing cycle in which SRP receives notice of cancellation.

D. A customer will select a level of participation in 100 kilowatt hour (kWh) increments per month or at a percentage of the customer’s monthly kWh consumption under the applicable SRP account, up to 100 percent, subject to availability and the terms of the applicable REC Program.

E. A customer may not participate in this rider at a level that is greater than the customer’s expected annual energy use under the applicable SRP account, as determined by SRP.
F. In addition to the charges under a participating customer's standard price plan, a customer will pay a premium charge, calculated before taxes, based on the customer’s level of participation in this rider. SRP may choose to assess the premium charge on a monthly or quarterly basis, and, if applicable, may require payment of the premium charge prior to the transfer of RECs to a customer.

G. Customer participation may require a written agreement between SRP and the customer, which may contain additional terms and conditions applicable to the customer's participation in this rider.

H. For purposes of this rider, renewable resources may include, but are not limited to, solar, biomass, landfill gas, wind, geothermal, or small hydroelectric.

I. As a pilot rider, this rider is subject to change or termination at any time, with the approval of the SRP Board.

PRICE AND TERMS:
The terms and conditions of each REC Program, including price or method of determining price, will be published on SRP's website (www.srpnet.com) as the REC Programs are implemented or modified. The price under each REC Program may change periodically in accordance with the terms of the applicable REC Program.

ADJUSTMENTS:
SRP will increase or decrease billings under this rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, energy, or RECs provided under this rider.
SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

RENEWABLE ENERGY SERVICES PILOT RIDER

SUPPLEMENTAL TO RESIDENTIAL PRICE PLANS E-13, E-14, E-15, E-21, E-22, E-23, E-26, E-27, AND E-29
GENERAL SERVICE PRICE PLANS E-32 AND E-36
PUMPING PRICE PLANS E-47 AND E-48
LARGE GENERAL SERVICE PRICE PLANS E-61, E-63, E-65, E-66 AND E-67

Effective: May 2019 Billing Cycle
Supersedes: April 2015 Billing Cycle

AVAILABILITY:
Participation is determined solely by SRP according to specific published individual programs. Initial program capacity will be 20 MW, which capacity may be increased in the future. Renewable energy services programs include, but are not limited to, solar, wind and geothermal projects.

APPLICABILITY:

CONDITIONS:
A. Customers taking service under this rider will pay a fixed price for metered kilowatt-hours (kWh) attributable to one or more designated renewable facilities for a term of 10 years or as such terms may be set forth in published programs. Customers will be obligated to purchase energy from SRP at the fixed price in amounts totaling the customer’s pro-rata share of the energy production attributable to their subscribed capacity of the renewable facility or facilities regardless of their demand. Fixed customer charge components and other non-fuel charges will remain in effect. Supplemental power and energy will be purchased by the customer under the customer’s applicable Price Plan.

B. The methodology for allocating and awarding the total available capacity will be determined solely by SRP. Participants must subscribe to a minimum amount of capacity.

C. Customers will not be guaranteed a particular amount of energy at the fixed price and will only receive the customer’s allocable portion of the energy attributable to the renewable facility or facilities for each billing period. Renewable generating facilities may be subject to variability of the weather and outages for maintenance and repair, and energy generation. Energy from solar generating facilities may be lower or higher from one billing cycle to the next based on the amount of available sunlight and any necessary outages.
D. SRP will retain all of the “Environmental Attributes” associated with the renewable energy produced by the facility. Environmental Attributes, also known as Renewable Energy Certificates (“RECs”), include all existing or future non-energy attributes of renewable energy generation including all compliance and marketing aspects of the energy generation.

E. Accounts participating in this rider are prohibited from receiving any other renewable energy incentive payments from SRP. If an account has already received a renewable energy incentive payment from SRP it may not participate in this rider.

F. Terms and conditions for participation in this rider will be identified in specific published programs.

G. As a pilot rider, this rider is subject to change or termination at any time, with the approval of the SRP Board.

PRICE AND TERMS:
The terms of each program, including price and terms of service, will be published on SRP’s Web Site (www.srpnet.com) as they are developed and implemented.

RULES AND REGULATIONS:
Service under this rider shall be in accordance with the terms of SRP’s Rules and Regulations, as they may be amended or revised by SRP from time to time. Failure by a customer to comply in all material respects with SRP’s Rules and Regulations may result in SRP terminating electric service to the customer.

ADJUSTMENTS:
SRP will increase or decrease billings under this rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

RENEWABLE NET METERING RIDER

SUPPLEMENTAL TO RESIDENTIAL PRICE PLANS E-21, E-22, E-23, E-26 AND E-29
GENERAL SERVICE PRICE PLANS E-32 AND E-36
PUMPING PRICE PLANS E-47 AND E-48
LARGE GENERAL SERVICE PRICE PLANS E-61, E-63, E-65 AND E-66

Effective: May 2019 Billing Cycle
Supersedes: April 2015 Billing Cycle

APPLICABILITY:
The Renewable Net Metering Rider is currently frozen from new participation, but remains applicable to those customers who are, under clause (B) of the Applicability section of the E-27 Price Plan, exempt from required participation in that price plan, whether or not they continuously participate in this rider.

To wind, geothermal or solar electricity conversion systems with an Alternating Current electrical peak capability of 300 kilowatts (kW) or less. Limited to customers receiving service under Standard Price Plans E-21, E-22, E-23, E-26, E-29, E-32, E-36, E-47, E-48, E-61, E-63, E-65 or E-66 who purchase power and energy provided by SRP and who are qualified to sell power and energy back to SRP. Not available to other customers.

CONDITIONS:
A. Two or more meters may be required for Renewable Net Metering customers receiving service under the applicable price plan. The customer is required to provide a metering service entrance for all meters.

B. At SRP’s request, the customer must sign SRP’s then-current form of Interconnection Agreement as a condition for service under this rider.

C. The customer shall pay SRP for interconnection costs prior to commencement of service under this rider. Interconnection costs include but are not limited to reasonable costs of connection, switching, relaying, metering, transmission, distribution, safety provisions, engineering studies and administrative costs incurred by SRP directly related to the installation of the physical facilities necessary to permit interconnected operations.

D. The customer’s excess generation output is sold directly to SRP and the customer’s supplemental electric requirements are met by sales from SRP.

E. A customer’s participation in this rider will be automatically cancelled as of the date on which that customer first takes service under the E-27, E-13, E-14, or E-15...
Renewable Net Metering Rider

Price Plan. A customer may cancel service under this rider, and cancellation becomes effective at the end of the billing cycle in which notice is received. If a customer's participation in this rider is cancelled, that customer may not subsequently elect service under this rider, unless that customer is, under clause (B) of the Applicability section of the E-27 Price Plan, exempt from required participation in that price plan.

NET METERING METHOD:
The kilowatt-hours (kWh) delivered to SRP shall be subtracted from the kWh delivered from SRP for each billing cycle. If the kWh calculation is net positive for the billing cycle, SRP will bill the net kWh to the customer under the applicable price plan for which they take service. If the kWh calculation is net negative for the billing cycle, SRP will carry forward and credit the kWh (excess generation) against customer kWh usage on the next monthly bill; for the purpose of this calculation, excess generation will be tracked by time-of-use period, where appropriate. However, if the kWh is net negative at the end of the April billing cycle, SRP will credit the net kWh from the customer at an average annual market price. No credits will be carried forward to the May billing cycle.

ANNUAL CREDIT:
Renewable Net Metering Credit = Excess kWh for the April billing cycle * (Annual Average Peak Market Price - $0.00032/kWh) where:

1. Excess kWh for the April billing cycle is equivalent to the net negative kWh for the billing cycle.

2. Annual Average Peak Market Price is calculated to be a simple average of the Daily Peak Market Price from May 1st of the prior year to April 30th of the current year. Daily prices will be taken from the Intercontinental Exchange Palo Verde Peak index (or another comparable index if the Intercontinental Exchange index is no longer available).

3. The price adjustment of $0.00032/kWh represents the cost incurred by SRP for scheduling, system control and dispatch services.

ADJUSTMENTS:
SRP will increase or decrease billings under this rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

SUSTAINABLE ENERGY SERVICES PILOT RIDER

SUPPLEMENTAL TO RESIDENTIAL PRICE PLANS E-13, E-14, E-15, E-21, E-22, E-23, E-26, E-27 AND E-29
GENERAL SERVICE PRICE PLANS E-32 AND E-36
PUMPING PRICE PLANS E-47 AND E-48
LARGE GENERAL SERVICE PRICE PLANS E-61, E-63, E-65, E-66 AND E-67

Effective: May 2019 Billing Cycle

AVAILABILITY:
Enrollment is subject to available capacity from renewable generation that is newly developed or procured by SRP, and administrative capability, in each case as determined by SRP, in its sole discretion.

APPLICABILITY:
To all customers served under SRP’s Standard Electric Price Plans E-13, E-14, E-15, E-21, E-22, E-23, E-26, E-27, E-29, E-32, E-36, E-47, E-48, E-61, E-63, E-65, E-66 or E-67 who reserve, under the terms of specific published individual programs, renewable generation nameplate production AC capacity under this rider.

CONDITIONS:
A. SRP’s procurement or development of new renewable generation, and the offering of that new generation under this rider, will be at SRP’s sole discretion.

B. Terms and conditions for participating in this rider, which may include additional restrictions, limitations, and eligibility and other requirements, will be identified in specific published programs approved by the SRP Board.

C. Customers participating in this rider will reserve a portion of the capacity, subject to availability, of one or more designated renewable facilities.

D. In addition to the charges under a participating customer’s standard price plan, a participating customer will pay a fixed price per metered kilowatt-hour (kWh) attributable to the customer’s reserved capacity. The price will be set forth in the published program in which the customer participates.

E. The methodology for allocating and offering the total available capacity will be determined solely by SRP.
F. SRP will own the renewable energy and, unless expressly provided otherwise in a specific program, will retain all other attributes and benefits associated with the renewable generating facility(ies). The transfer or retirement of Renewable Energy Credits associated with the generating facility(ies), if applicable, will be governed by the terms of the specific program in which the customer participates.

G. As a pilot rider, this rider, and any program implemented hereunder, is subject to change or termination at any time, with the approval of the SRP Board.

RULES AND REGULATIONS:
Service under this rider shall be in accordance with the terms of SRP’s Rules and Regulations, as they may be amended or revised by SRP from time to time. Failure by a customer to comply in all material respects with SRP’s Rules and Regulations may result in SRP terminating electric service to the customer.

ADJUSTMENTS:
SRP will increase or decrease billings under the rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT

USE FEE INTERRUPTIBLE RIDER

SUPPLEMENTAL TO GENERAL SERVICE PRICE PLANS E-32 AND E-36
PUMPING PRICE PLANS E-47 AND E-48
LARGE GENERAL SERVICE PRICE PLANS E-61, E-63, E-65 AND E-67

Effective: May 2019 Billing Cycle
Supersedes: May 2008 Billing Cycle

APPLICABILITY:
To customers receiving and qualifying for electric service under General Service Price Plans E-32 and E-36, Pumping Price Plans E-47 and E-48 and Large General Service Price Plans E-61, E-63, E-65 and E-67 who have a minimum annual load of 100 kilowatts (kW).

CONDITIONS:
A. Customers taking service under this rider are eligible for credits in exchange for curtailing load at the request of SRP.

B. Credits are paid only when SRP issues a “Notice of Curtailment.” SRP will require customers to curtail load in 4-hour blocks. Each curtailment will earn credits based on a 4-hour curtailment even in the event SRP terminates the curtailment before end of the 4-hour period. Curtailments can be called for economic or non-economic reasons and are to be called at the sole discretion of SRP.

C. Credits are determined after the fact based on:
   1. Predetermined value of the curtailed load ($/kW/hour) as specified by the customer, and
   2. Actual load curtailed.

D. For calculating the credit, curtailed load is the difference between the Base Load and load during the curtailment period. Base Load is described in a written curtailment agreement between SRP and customer. Should customers fail to curtail load, SRP, at its option, can remove customers from the program without notice.

E. Customer may opt for voluntary or mandatory curtailments.
   1. Voluntary Curtailment: Customer may opt for voluntary interruptions. With this option, customer has the right to ride through the curtailment period without penalty. Customer load however must not increase during the curtailment period. Should customer’s load increase in any 15 minute interval during the curtailment period to a level above the
Use Fee Interruptible Rider

Base Load, all load above the Base Load will be charged (penalized) at the prevailing spot market price.

2. Mandatory Curtailment: Customer may opt for mandatory curtailments such that customer predetermines load to be curtailed. Failure to curtail load in any 15-minute interval* will result in loss of credits for that interval and all load above the agreed-to curtailment will be billed (penalized) at 1.5 times the customer specified value.

SRP may prioritize voluntary and mandatory load based on the specific needs of SRP.

* 30-minute intervals will be used if 15-minute data is not available.

F. SRP will offer a minimum notice of 30 minutes. Curtailments can be issued using Fax, Phone, E-mail, electronic buzzer or other mutually agreed to devices.

ADJUSTMENTS:
SRP will increase or decrease billings under the rider in proportion to any taxes, fees, or charges (excluding federal or state income taxes) levied or imposed by any governmental authority and payable by SRP for any services, power, or energy provided under this rider.
