

12-Month Rolling Volatile Organic Compound (VOC) Emissions from Units 1-12 Coolidge Generating Station

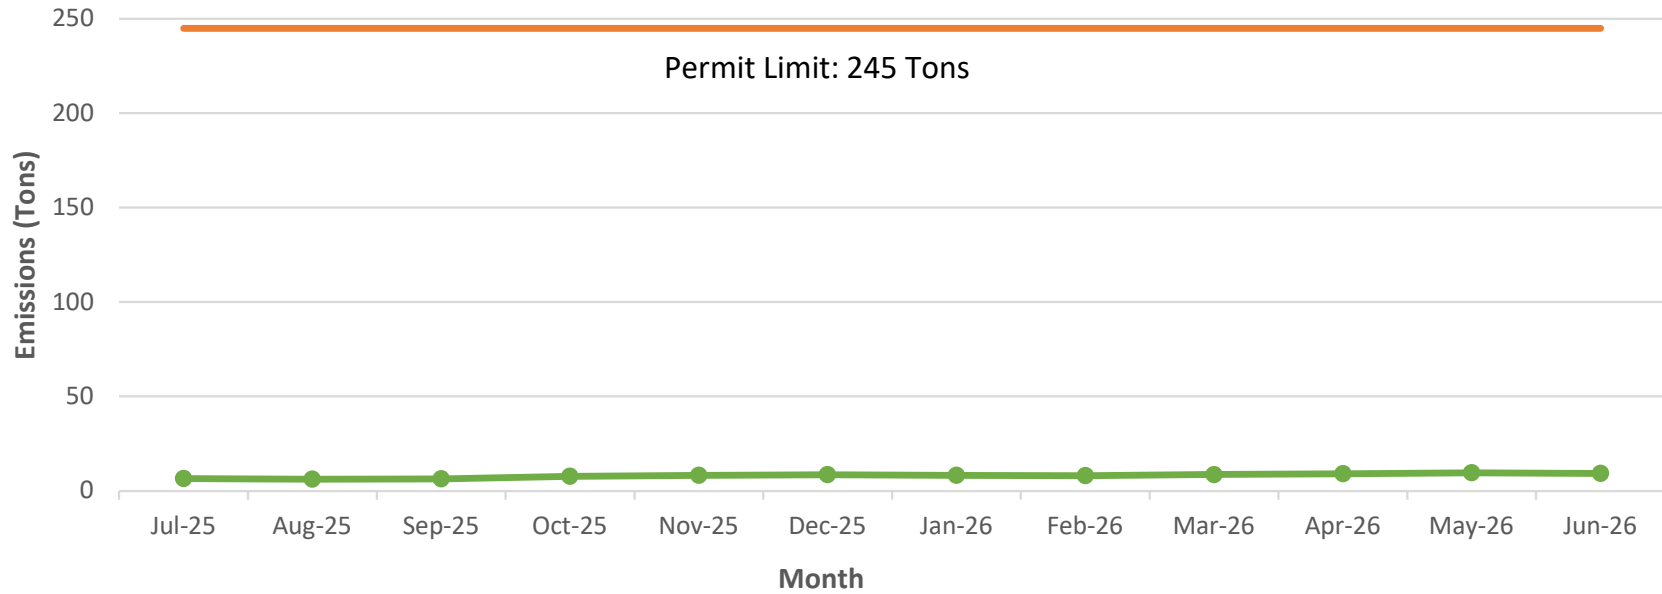

12-Month Rolling Nitrogen Oxides (NOx) Emissions from Units 1-12 Coolidge Generating Station

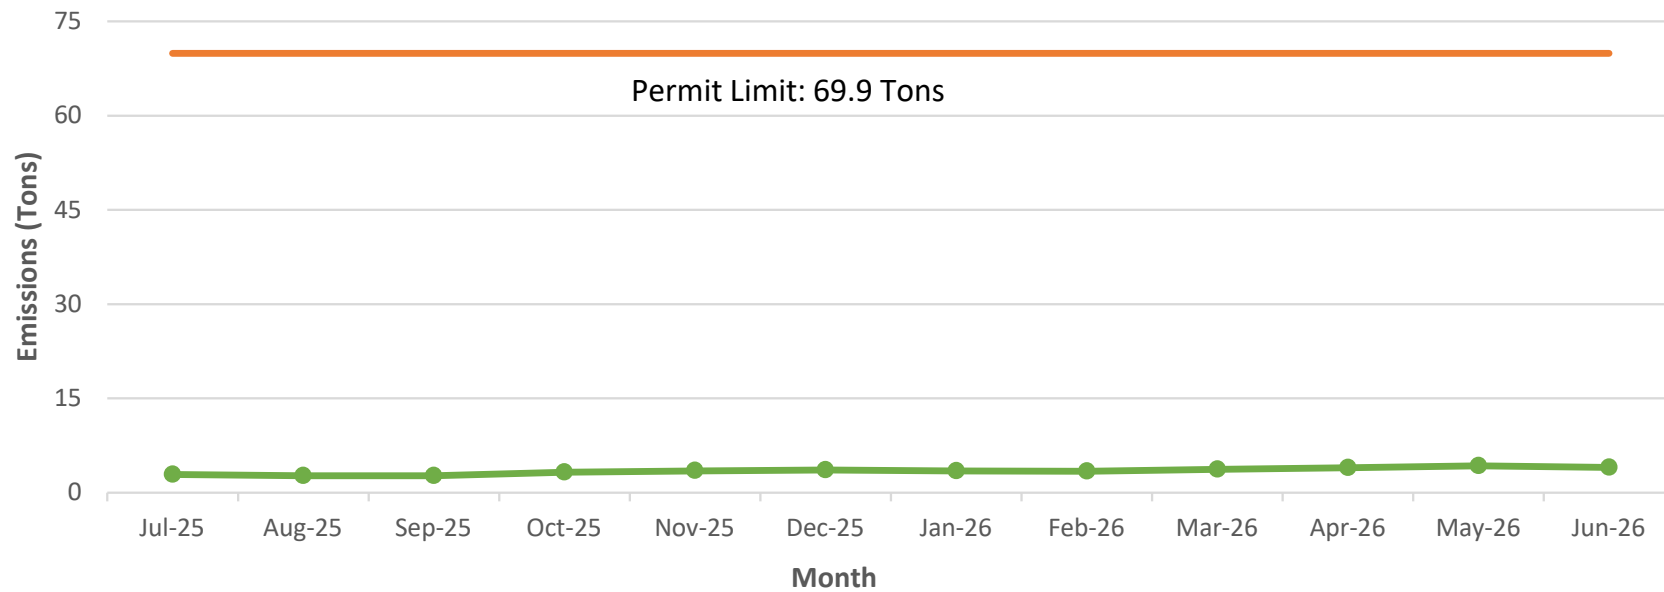

Permit Limit: 245 Tons

12-Month Rolling Carbon Monoxide (CO) Emissions from Units 1-12 Coolidge Generating Station

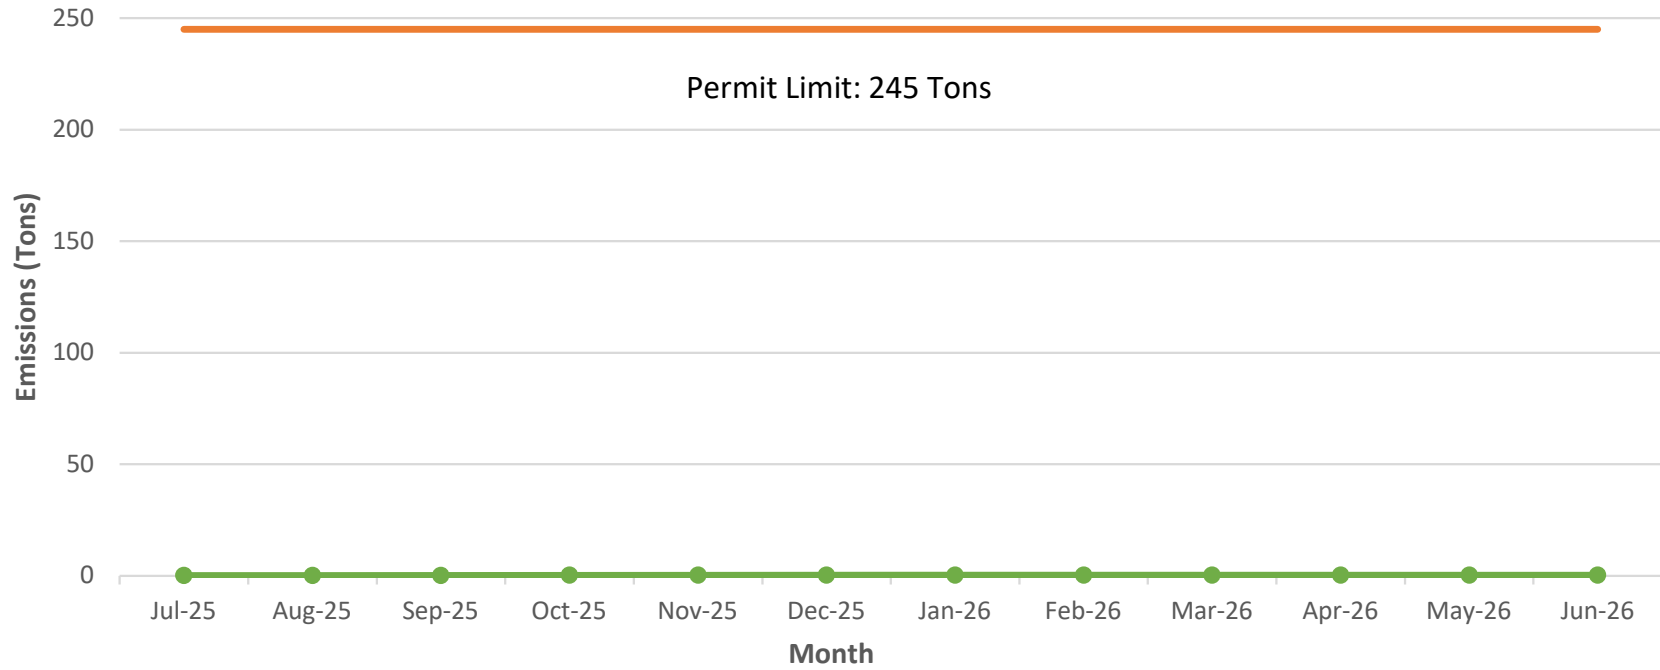

12-Month Rolling Particulate Matter (PM10*) Emissions from Units 1-12 Coolidge Generating Station

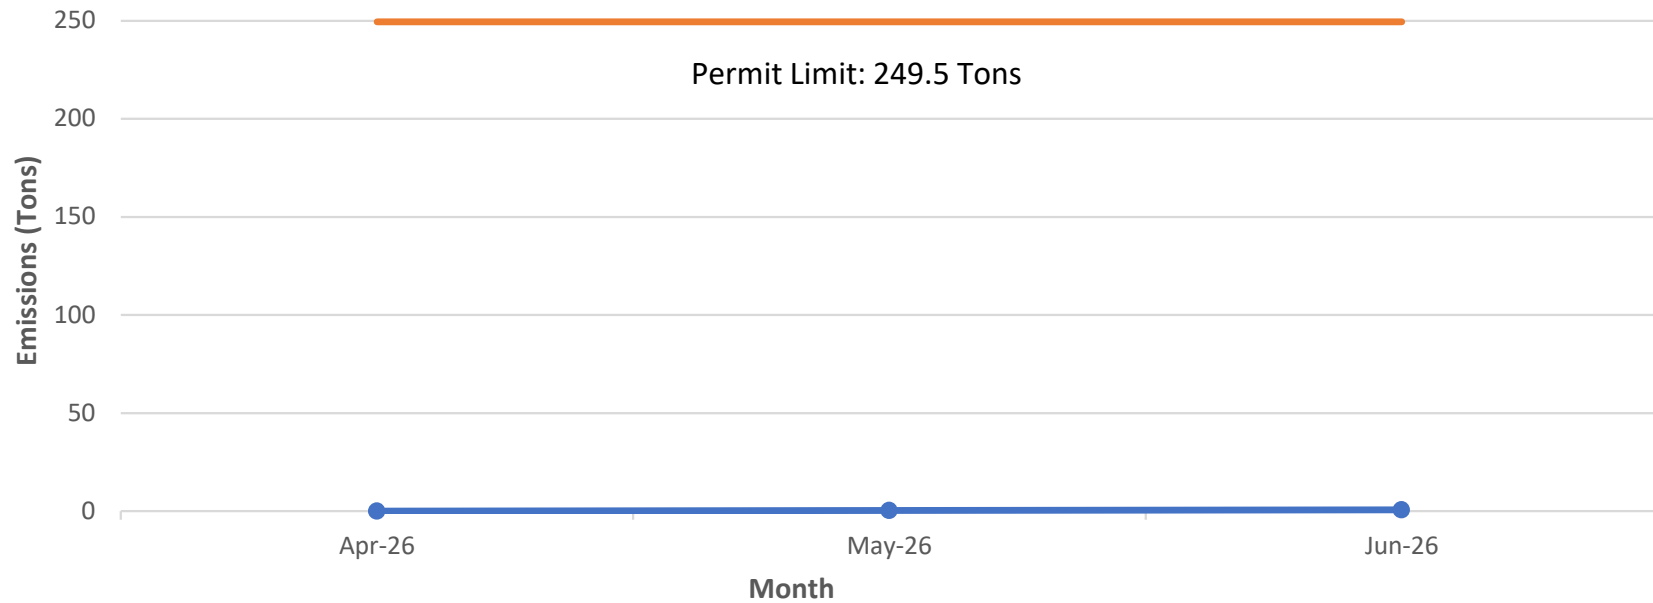

* PM10: Particulate Matter with a diameter of 10 micrometers and smaller

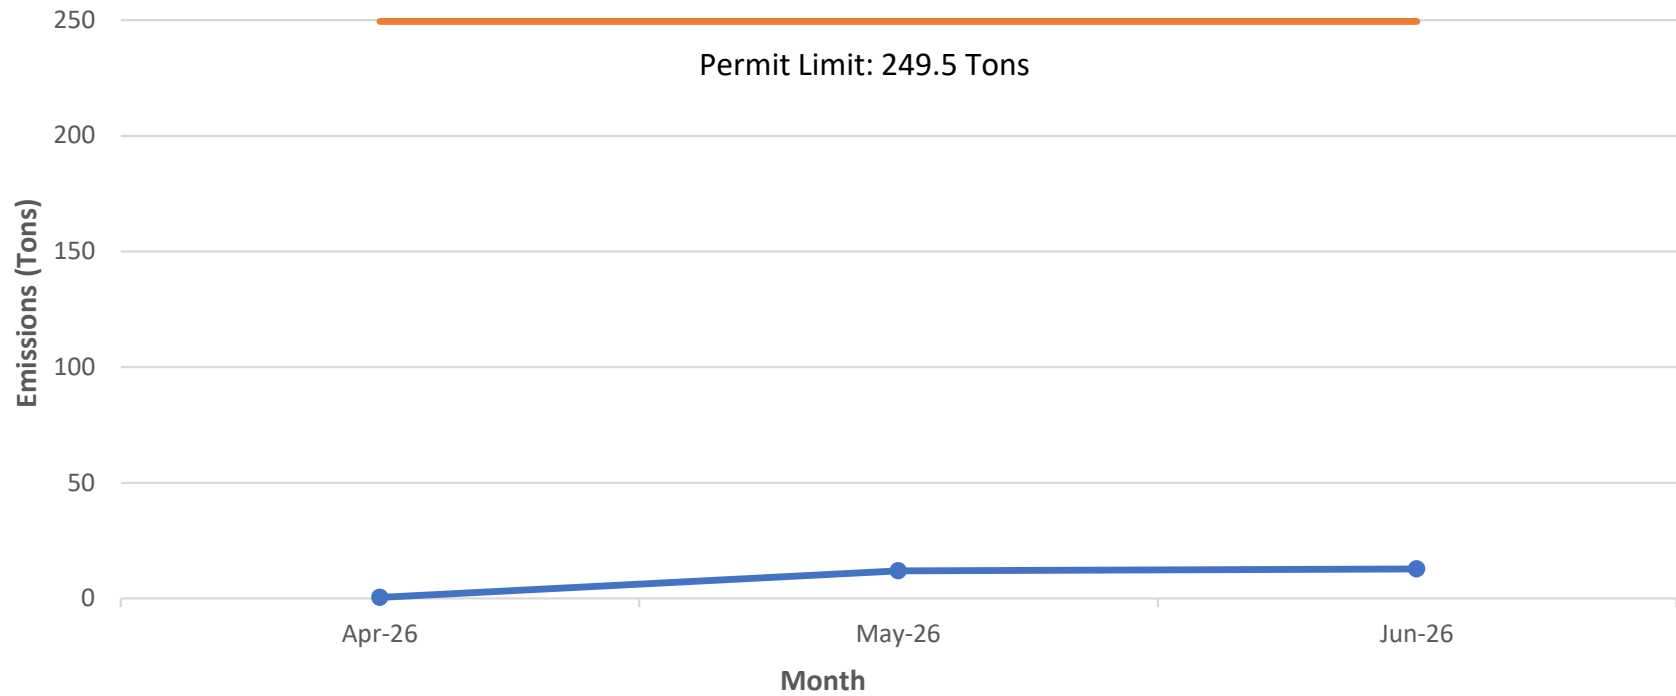

12-Month Rolling Sulfur Dioxide (SO₂) Emissions from Units 1-12 Coolidge Generating Station

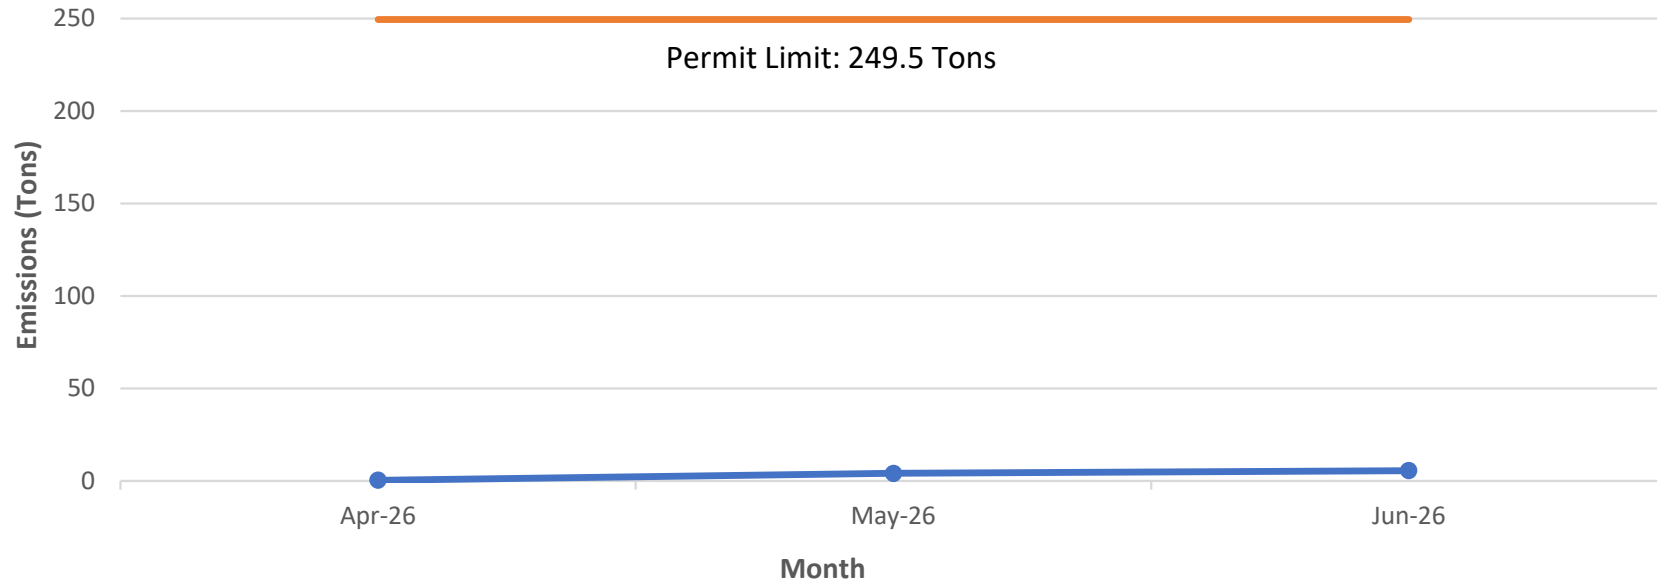

12-Month Rolling Volatile Organic Compound (VOC) Emissions from Units 13-24 Coolidge Generating Station

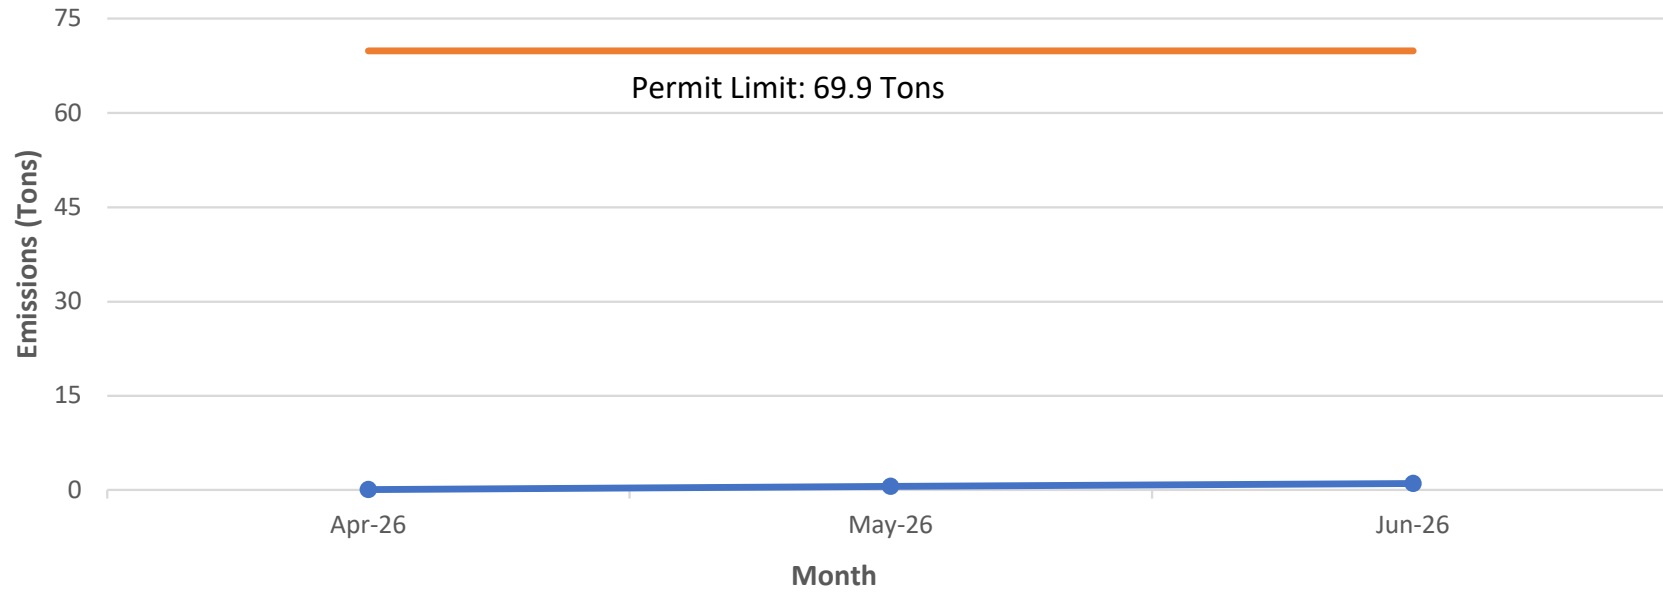

12-Month Rolling Nitrogen Oxides (NOx) Emissions from Units 13-24 Coolidge Generating Station

12-Month Rolling Carbon Monoxide (CO) Emissions from Units 13-24 Coolidge Generating Station

12-Month Rolling Particulate Matter (PM10*) Emissions from Units 13-24 Coolidge Generating Station

* PM10: Particulate Matter with a diameter of 10 micrometers and smaller

12-Month Rolling Sulfur Dioxide (SO₂) Emissions from Units 13-24 Coolidge Generating Station
