SRP SMALL BUSINESS SOLUTIONS

Effective FY25 (May 1, 2024 – April 30, 2025)

NO-COST ASSESSMENT, DISCOUNTED EQUIPMENT

A lighting upgrade is one of the easiest ways to save on energy costs, but most small businesses don't know what type of lighting they have or if they could benefit from an upgrade. That's why SRP created the Small Business Solutions program. It offers small commercial and industrial business customers like you no-cost lighting walk-through assessments and instant discounts that generally cover a large portion of the costs for new energy-efficient equipment. SRP has instant discounts on LED lighting, qualifying Wi-Fi-enabled smart thermostats, high-efficiency HVAC fan motors, outside-air economizers and HVAC tuneup activities.

To receive the no-cost assessment and instant discounts, customers must work with an approved Small Business Solutions Alliance participant (a local contractor partnering with the program).

BENEFITS

- Reduces lighting energy costs by as much as 35%.
- Has an average payback of less than one year.
- Results in less maintenance and repair.
- Improves occupant comfort and productivity with better-quality light.
- Enhances the appearance of your facility and products.
- Smart thermostats offer added control of your HVAC systems and can be scheduled to maximize energy savings.
- High-efficiency fan motors help optimize your AC's performance.
- Economizers help regulate the mix of outdoor air depending on the temperature outside, which reduces the effort needed to keep your space cool.

IDEAL FACILITIES

- Facilities built more than four years ago
- Facilities originally built for a different end use
- Facilities that have not had a lighting system upgrade
- Facilities that have high-intensity discharge (HID) or fluorescent lighting
- Facilities that have lighting equipment with long operating times
- Facilities with lighting systems that emit excessive noise or heat
- Facilities that have non-programmable thermostats

WHAT QUALIFIES?

SRP offers instant discounts through approved Small Business Solutions Alliance participants for the purchase and installation of qualifying equipment in existing facilities.

Qualifying measures include:

- ENERGY STAR® or DesignLights™ Consortium-approved LED fixtures and lamps
- Wall, ceiling-mounted and integrated occupancy sensors, vacancy sensors and daylighting controls
- LED exit signs
- Select Wi-Fi-enabled smart thermostats
- EC motors and economizers
- HVAC tuneup

INSTANT DISCOUNTS

SRP Small Business Solutions provides instant discounts through approved Small Business Solutions Alliance participants that generally cover a large portion of the typical installation costs for qualifying equipment. This program also offers bonus incentives when lighting and HVAC upgrades and maintenance are combined on the same application. Customers are subject to a maximum rebate of $450,000 from May 1 through April 30 for all SRP programs. With separate program area caps of $300,000 for Energy Efficiency programs, $300,000 for Business EV programs, and $50,000 for Electric Technology programs. Program or technology-based limits may also be applicable, based on program terms and conditions. SRP reserves the right to determine at their sole discretion the program year to which a rebate is attributed.

ELIGIBILITY

Any current SRP small commercial retail electric customer who satisfies the following criteria is eligible:

1. In a facility served by a qualifying SRP nonresidential retail electric price plan
2. Customer's cumulative 12-month energy consumption across all accounts must be less than or equal to 300,000 kilowatt-hours of total energy usage
3. The space has been occupied by the same account holder for the previous 12 months

Call the program administrator at **(602) 236-3054** to find out if you qualify.

HOW TO PARTICIPATE

Follow these simple steps to apply for Small Business Solutions discounts. All applicable forms are available at **srp.net/coffee**.

1. Request an assessment with any of the Small Business Solutions Alliance Participating Contractors. You can find contact information for each contractor by visiting the website.
2. Review the free assessment results, which will identify your discounted price and estimated savings.
3. Contract with the Small Business Solutions Alliance participant for the purchase and installation of qualified lighting equipment or HVAC measures at the discounted price.

Discount funds are limited and available on a first-come, first-served basis. Check the availability of funds on the website or contact the program administrator at **(602) 236-3054**.
